

Technology: [Method forming a one-piece articulating spacing device for a knee joint](#)

VA ID Number: 09-062

Inventor: Nicholas John Glori

Location: Palo Alto, CA

Topic: Rehab/Assistive Device

USPTO Issue Date: 3/5/2013

Patent Number: 8,388,881

The VA has joint ownership with The Board of Trustees of the Leland Stanford Junior University

Contact: lee.sylvers@va.gov

Abstract: The present invention provides molds and methods for producing articulating spacers that are custom-fit to the bone and can be used in two-stage revision knee arthroplasty and other orthopaedic surgery.
