Central Arkansas Veterans Healthcare System

Main area of study: PTSD

Dr. Jeff Pyne, a Navy Veteran, is a psychiatrist and mental health investigator at the Central Arkansas Veterans Healthcare System in Little Rock. He conducts research on PTSD and other mental disorders. He directs the hospital’s projects under the VA funding initiative CREATE, which encourages research in high-priority areas that affect the health of Veterans. The projects aim to improve access to proven mental health care therapies for rural Veterans. His research has been funded by VA, the U.S. Office of Naval Research, and the National Institutes of Health.

Pyne spent nearly 25 years in the military, both on active duty and as a reservist, and pursued scientific work that impacts his approach to research in VA.
