Technology: Spectroscopic detection of brain damage

VA ID Number 07-150

Inventor: Eugene Hanlon

Location: Bedford, MA

Topic: Mental Health

USPTO Issue Date: 2/10/2015

Patent Number: 8,954,133

The VA has a sole ownership interest

Contact: Christopher.Drabik@va.gov

Abstract: The present invention provides a non-invasive device and method of detecting or evaluating brain damage in a living subject.
