Technology: Myricanol derivatives and uses thereof for treatment of neurodegenerative diseases

VA ID Number: 2017-024

Inventor: Chad Dickey

Location: Tampa, FL

Topic: Neurology

USPTO Issue Date: March 21, 2017

Patent Number: 9,598,338

The VA has a joint ownership interest with University of South Florida, Tampa

Contact: Benjamin.Henry@va.gov

Abstract: The subject invention pertains to myricanol derivatives, therapeutic compositions, and methods for treatment of neurodegenerative diseases, in particular, neurodegenerative diseases associated with abnormal accumulation of protein tau.
