Michy Kelly, Ph.D.         Lawrence Reagan, Ph.D.

G. Darryl Wieland, Ph.D., MPH

This year 2019, marks the 94th year of the VA research program. VA researchers play an important role in providing high quality care for Veterans and advancing medical science. Research Day is an opportunity to educate Veterans, our elected representatives, and others about the research at our medical center. This year’s theme is “The Science of Hope.” Please remember to BLOCK time during your morning schedule so that you can attend!
