The VA Central IRB Review Process

August 30, 2016

Step 1
PI Application submitted to the VA Central IRB

Step 2a
PI Application reviewed by convened IRB or via expedited review

Step 2b
Comments sent to PI who then responds to requests for changes and/or clarifications

Step 3a
Local sites notified and have 15 days to provide comments on VA Central IRB Review of PI Application

Step 3b
Local Site Investigators (LSIs) submit LSI Applications to the VA Central IRB through PI/SC

Step 4a
VA Central IRB reviews local site comments and requires LSIs to make changes as applicable; PI asked to submit amendment or make comments if applicable.

Step 4b
VA Central IRB reviews LSI Applications and requires LSIs to make changes if applicable

Step 5
PI and/or LSI make changes as required or provide comments as requested and submits revised LSI applications and/or PI/SC amendment for review.

Step 6
PI comments/amendment and LSI Applications reviewed and given final approval if no further changes

Step 7
Study reviewed at local site per VA and local R&D Committee policies.

Step 8
Approved minutes of IRB meetings loaded to VA Central IRB SharePoint site

Note: Local accountability occurs throughout the centralized review process.

Key Steps in the VA Central IRB Review Process

August 30, 2016

Note: A study cannot begin until it is approved by the VA Central IRB and the local VA facility has complied with the requirements of VHA Handbook 1200.01.

Step 1. The Principal Investigator of a multi-site study, after review concurrence of the VA Central IRB Administrator, submits a PI/SC Application with all applicable documents to the VA Central IRB.

The PI Application includes the following as applicable:
- Co-PI/SC and Coordinating Center Supplements
- Model Informed Consent Form and HIPAA Authorization
- Waiver Requests (HIPAA/Informed Consent)
- Vulnerable Population Supplements
- CVs and Conflict of Interest Statements for PI
- Model Recruitment Materials
- Protocol (VA Central IRB has optional template)
- Other documents as per study design

Step 2. Review of the PI Application by the VA Central IRB at a convened meeting or by expedited review; if approved, the PI and participating local sites are informed.

Step 3. This step consists of 2 parts that take place simultaneously:

Step 3a. Local Site Review
Local sites have 15 calendar days to review the VA Central IRB approved PI/SC Application and submit comments to the VA Central IRB.

Step 3b. Local Site Investigator (LSI) Applications
LSIs may begin to submit LSI Applications to the VA Central IRB. LSI Applications include the following as applicable:
- Local ACOS/R&D Concurrence
- Informed Consent Form/HIPAA Authorization
- CVs and COI Statements for investigators
- Recruitment materials to be used at local site
- Other documents as required per protocol

Step 4. VA Central IRB reviews Local Site comments and LSI Applications

Step 4a. Review of submitted local site comments; VA Central IRB may:
- Refer comments to PI/SC
- Require changes in PI/SC and/or LSI Applications
- Take no action

Step 4b. Review LSI Applications and include any change from step 4a if applicable.

Step 5. PI and/or LSI submits changes or provides comments as applicable. PI/SC may submit an amendment if required or desired in order to respond to VA Central IRB comments.

Step 6. VA Central IRB approves LSI Applications and all relevant materials sent to the Local Site, to include the approved PI/SC and the relevant LSI Application, as well as the VA Central IRB response to any local site comments.

Step 7. The Local Site reviews the IRB-approved package in accordance with its local R&D Committee policies and determines whether to approve the study to be conducted at the local site and whether all requirements to begin the study at the site have been met.

Step 8. Upon approval at a subsequent convened meeting and the signature of the VA Central IRB Co-Chairs, VA Central IRB meeting minutes are uploaded onto the VA Central IRB SharePoint site for access by Local Site Liaisons.
